CORPORATE SERVICES

## **New Logo Announcement**

P. N. Kourtellos & Associates LLC along with its affiliated fiduciary firm Kourtelaw Ltd are proud to unveil their new company logos. As part of the ongoing evolution of our law firm and with the aim to unify our companies' identities, we have adopted a singular logo concept which will represent the group's ideals of high quality legal and corporate services. The old mirrored K is replaced by a contemporary combination of the capitals K and L curving through a dark blue square. A clear visual change though our vision and philosophy remain unaltered reflected by our core motif "*deeds not words*".

The new logo signals to the outside world the transformation phase of our firm. A few months ago we acquired further space so as to increase our office space capacity by 50% at its 64 Agias Fylaxeos street location in Limassol. The expansion accommodates recent growth and responds to the strong demand for the firm's services. We have seamlessly merged the additional space with our existing office premises in a way that represents our firm's culture.
